

# Our Overlays...

We offer overlays that will revive your old, worn concrete or decorate and protect your new concrete. We coat over your existing floor with our state-of-the-art products. The result is a beautiful floor that is durable and long-lasting. Choose from a wide variety of looks, from simple color flakes to the elaborate look of wood flooring. Our products are for both indoor and outdoor use, and can be installed over many surfaces, not just concrete!

Cementitious Resin

## Polymer Based

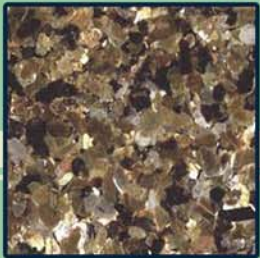

**Quartz:** This rugged option comes in many color combinations and is great for all applications.

**Pebbles:** Beautiful pebbles can spruce up walkways, stairs, or patios. We offer different sizes and colors.

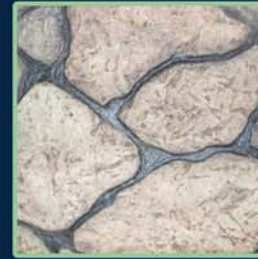

**Resin Chips:** These resin chips come in many sizes and an endless variety of color combinations that will make your garage or basement unique and beautiful.

**Mica:** Similar to our resin chips, but with more sparkle!

**Metallics:** Want to add some pizzazz to your flooring? Consider our metallic options, which are sure to turn heads.

**Faux Stone:** The look of elegant stone that can withstand abuse.

**Faux Brick:** No more crumbling mortar or broken bricks with this choice.

**Faux Hardwood:** Perfect for any space, you won't believe that this is concrete and not real wood.

**Faux Tuscan Tile:** A stylish alternative to pricey tiling, our Tuscan tile look won't fail to impress.

**Highlights:** A simple way to decorate your concrete, with a finish ranging from heavy to light.
